1.	James W. Fowler	fowlersroosters@verizon.net	Dunkirk	With Route Four being our county's main northern entrance and exit, we cannot afford to have significant additional traffic invade our roads. With a nuclear power plant south of our Calvert County line, an emergency with that plant, could have catastrophic results.
2.	Tracey Dickerson	c21jwtd@aol.com	Dunkirk	There is already too much traffic and commercialization in Dunkirk. We do not want nor need any more. Rt. 4 is not sufficient to be handling the amount of traffic now, and it is primarily the only way for north county into and out of Calvert County. Please leave Dunkirk as it is now. Keep it country!

4.	Shirley A Tomko	curls4ever@comcast.net	Dunkirk	Our commissioners need to listen to our concerns. They were voted in to represent what we want not what they want. How many times do the taxpayers in this county have to attend meetings and sign petitions? KEEP CALVERT FROM OVERGROWING WHERE NO ONE WILL WANT TO LIVE HERE.
5.	Kurt Lienau	klienau@gmail.com	Owings	After the last meeting at which all constituents argued for having more restrictions on growth and keeping the natural beauty of Calvert County intact, it seems that the board has elected to ignore the wishes of the people they are meant to serve. Please understand that we will not accept this wonton disregard for the welfare of Calvert County and its people. What you propose to do is evidence of a lack of concern for the quality of life for your community. Do not ignore the welfare of your community. Mr. Hance, I voted for you because of your statements about protecting Calvert county from becoming another Waldorf. Please do not let your your so commissioners from ruining our way of life.
6.	Robin Whitman	Robinwremax@gmail.com	Owings	I do not understand the Commissioners objections to the proposed changes by the citizens regarding limiting growth. I would like to see definite reasons why they object to each change proposed.

8.	Joe Carr	josjr@comcast.net	Dunkirk	Speaking as s a resident of Dunkirk for 35 years, the radical commercialization of Dunkirk has created an unsafe, congested, and depressing place to live. The voices of the citizens and the local small merchants have been muted by a non-democratic process. All of our commissioners must respect our petition requests or be subject to a very energized response at the next election.
9.	Joseph Bossert	joe@jbcpa.org	Dunkirk	Calvert County used to be "The Charm of the Chesapeake" and was truly the best rural county in Maryland. Now it is quickly on its way to becoming just another overcrowded suburbia with traffic and overpopulation.

17.	Sharon and Russ Dyrland	Rsdyrland@comcast.net	Dunkirk	We moved to Calvert County because of the "green" aspects of the County. Also, because of the uncrowded schools and a sense of being known. This is all changing at a very fast rate because of unchecked growth and the addition of major chain stores. Doesn't seem like the County is focused anymore on keeping it country, but rather change it to keep up with surrounding cities and counties that are highly congested and "brick".

43.	Lili Sheeline	lili.sheeline@longandfoster.com	Port Republic	<p>Commissioner Hutchins told me in an email that the “Major” vs. “Minor” Town Center distinction is meaningless: “...to try and discriminate one from the other through a label achieves nothing.” But it’s a planning tool, not simply a “label” – ask those of us living near a Minor TC. This “label” makes a big difference in our quality of life; the distinction is in the definitions: “Minor” centers are for local convenience, where as “Major” centers are regional.</p> <p>Mr. Hutchins also told me that me “...we must avail ourselves of every opportunity for business development in the towns.” In other words, the BOCC’s response is, forget all these citizen concerns about keeping small town and rural character, we know best what’s good for you... But those qualities do NOT have to be sacrificed for growth - both can be encouraged with knowledgeable, smart, and creative planning, which doesn’t seem to exist in our current (and recent past) county leadership. I applaud Commissioners Weems and Hance for their efforts to respond to our concerns. I hope that the other three Commissioners, in the end, will pay some attention as well. Without that, all of these “opportunities” for public input have been a sham.</p>

47.	Esther Rlmer	erimer@bellsouth.net	Huntingtown	<p>I am not in favor of the current proposed 2040 Comprehensive plan. Bring back growth controls. Do more studies of environmental and local impacts before stripping standards. Traffic on Rt 4 is already bad in rush hour... We don't need to end up with our own version of the Clinton/Waldorf/Brandywine corridor</p> <p>Expanding Huntingtown to both sides would make traffic even worse and makes little sense for business expansion when Prince Frederick and Dunkirk are just 10 minutes in each direction and already set up for business. Don't expand Huntingtown over rt 4</p> <p>Also opposition to the Bay Crossing needs to be outlined now. Rt 4 isn't set up for the additional traffic. Crossings at any of the 3 proposed Calvert locations would be disastrous for Calvert County's natural, cultural, and historic resources not to mention the sanctuaries on the Eastern Shore. If we're talking any new bridges, we still need replacements for the old Thomas Johnson Bridge and the Benedict Bridge!!</p>
48.	Scott Elkins	dselkins@comcast.net	Owings	<p>From what information is being widely disseminated around the county (both orally and in writing) it appears as though there is a significant conflict of interest among one or more of the commissioners and the proposed changes to the plan. If that is indeed accurate then the county commissioners are compelled to address this straight on with complete transparency before any vote is to be taken. To do otherwise would be patently unethical.</p>

We elected you to replace the last group that were trying to shove unwanted growth down our throats. My family has been in this county since 1927. In the 60's it became a full time home. This move was made so that my grandparents, my parents and myself so that we could get away from the crime and drugs that's big development brought to PG County. Knowing that our drive to work would be longer we welcomed this county as a bedroom community which it is now and always will be. No local development will equal the pay scale that the metro area offers. The only thing that development will bring is higher taxes to pay for the needed infulstructure. It will bring higher crime, more drugs, higher traffic. We need to realize that money is not everything but a sense of safety and a sense of family atmosphere is. Keep Calvert Country. We are seeking a county like the one we USED to live in, and loved. The good people who truly care about the county, and are are productive members of society are leaving BOCC! We have had enough. The traffic in the county is horrendous! Everything that made me grow up and buy a house here is gone. We have an ugly parking garage in the middle of the beach, everytime I drive down Route 4 I see another light being erected, I see clearing of beautiful woods and farm land for properties and retail space. We have enough, and if you don't think so, go look at all the empty retail space in Prince Frederick's Fox Chase! Look what you have already done to this county! If the building, or growing, as you like to refer to it continues we will simply be another Charles County. We are all begging for you to STOP! Tracy

182.	Mandy McGrath	mandyrae2355@yahoo.com	Lusby	We need to protect our environment and our citizens. If the citizens DO NOT want it why does it keep getting brought back up? The commissioners should have no personal interest in this or shouldn't be allowed to be involved if they do have a personal interest, that's conflict of interest and not okay. Our environment doesn't need any more crap thrown at it, we need to be saving what we have to protect the bay and all of the wetlands around it. The comprehensive plan should NOT be adopted.

185.	Margaret Dowell	mdowellart@aol.com	Sunderland	Opening up all of Calvert's smaller communities to unbridled development possibilities is simply irresponsible. It's also irresponsible to polarize our future into the simplistic growth/development vs land preservation model. Putting this black/white scenario aside and working in grayer areas, let's consider that employing the Infill Development concept would allow us to keep Calvert's rural nature completely intact while growing/expanding already existing developed areas. Infill development (focusing on underused or vacant space) can prevent build out sprawl. It can also bring new jobs, residents, offices, parks, to major/established town centers such as our county seat. Sensitive planning could create a special sense of place for residents and visitors alike – all without exceeding current town boundaries. Such purposeful, significant growth could certainly embrace and champion the precious farmland and waterways which have defined Calvert County all along. A possible win-win for all that might just be enough to try to accomplish by 2040.

189.	Susan Dzurec	calvertwoman@gmail.com	Huntingtown	<p>Commissioners,</p> <p>Unlike many lifelong multi-generational county residents I have only called Calvert County home for 24 years. I love the county, raised two children in the school systems, sent both our Army and our Marine Corp sons off to war while living here and welcomed their broken beings back here to heal afterward. While I anguished over our sons deployments I remember our waterman neighbor telling me that when he was in Viet Nam the only thing that kept him going was the thought of returning home to the shores of the Chesapeake where he grew up. That’s my vision of Calvert County. Not the “VISION” that Planning and Zoning has put into the Comprehensive Plan. My son’s vision didn’t include big box stores or traffic jams that go on for miles every night. Their recovery from war included the small town charm Calvert has held for years. Family farms that we hope will be around for generations to come because of preservation programs. Small family run stores like Bowens. That’s what people love when they move here and hope will still be here when they return from afar. I am not opposed to some growth in our county, however, what is being proposed in this plan will allow unbridled growth and there will be no way of turning back once it is signed into policy. By expanding the Town Centers in the Plan with the new maps, you ARE changing the zoning of that land. The citizens have tried over and over to tell you that this Comprehensive Plan is not their vision for the future they want to experience! We have asked for meetings with our elected/appointed officials and have a Town Hall format and have been constantly ignored and requests denied. We offer our concerns and solutions and are ignored. Our government is failing its citizens terribly by their belief that they know what is best for all of us rather than listening to the citizens and working together to find solutions to our problems.</p> <p>I understand that at the New York Bond Sale you were told that we need to expand our economic base. It would appear that neither YOU nor they know what has made Calvert County work and grow for all these years. At one time we had a financial surplus. Sadly that surplus is long gone by poor decisions on the part of our leadership and spending beyond our means, thereby borrowing more and more to cover expenses.</p>

				At the last Comp. Plan hearing I was approached by a person that works in the Emergency Room at Calvert Hospital. They told me that there is no way that the emergency room will be able to handle the number of people that the expansions of TCs and the growth will allow. I asked them to speak up and I was told if they speak up and tell you the truth, they'll lose their job. How sad that your own workforce can't be honest and up front with facts. Citizens have been lied to, ignored and disenfranchised from their right to have a government that is of the people and for the people. Even your own political party has denounced the actions of you, our Board of County Commissioners, the process of the plan and the denial of the rights of citizens. This abomination of a Plan will be your legacy in the history of Calvert County. Susan Dzurec Huntingtown, Md.

I moved here from PG county to get out of the traffic mess and over building that is going on there. We do not need to keep developing. The nightmare new parking garage at Rod and Reel is a prime example of developers and greed at it's finest. We do not need to sit at 1000 new traffic lights that will be needed to control the extra traffic that will be generated. Our farms and waters are what makes us the best county in the tri-county area, and would like to keep it that way. Also, commissioners who have a vested interest in financial gain from these rulings should be recused from voting on this issue. Thanks, Karen

Michele Spaulding	relaxmom@comcast.net	Huntingtown	The ramifications and negative impact on the environment that would occur by pushing this "comprehensive plan" forward is irresponsible and shortsighted. Rt 4 is already becoming a speedway and this plan would only heighten the dangers. Our family represents numerous military families who move to the DC area, looking for a safe place to plant roots, and raise children in a supportive community. Calvert County would no longer be that safe place; it would simply be like the other strip mall laden areas. There are no long term benefits in rushing this poorly designed "plan" in regards to the lives of those who desire to call this county "home."

281.	Roger Rhoads	rerhoads@comcast.net	Huntingtown	I am deeply opposed to the proposal to allow unchecked expansion of the town centers and the removal of the small and large designations. This will definitely have an adverse impact to the already terrible traffic problems associated with Huntingtown high school at Cox Rd and Rt4. As a country resident living off Cox Rd and using this intersection daily, I am asking our elected representatives not to allow this expansion in Huntingtown. With all the public opposition to this plan, why would the commissioners keep pushing for this? Seems to me this is a self-serving interest of the commissioners and the deep pockets that are persuading them to make this change. 292.	Cindy Peil	Clarrene@gmail.com	Dunkirk	Dunkirk residents do not want public sewer or the use of private sewer systems for commercial development. There are many well empty storefronts in the town center well suited for businesses. WE DO NOT WANT more building in Dunkirk. The Comp Plan should not be adopted as written without adding growth control measures. Commissioner McConkey should excuse himself from all votes that include the rezoning of his property in the Huntingtown area, as this is a direct conflict of interest. The county should add air monitoring for methane and particulate matter, and for the harmful chemical released from the large industrial facilities. Work should be coordinated through University of Maryland, or St. Mary's College. Residents in Calvert need to be aware of pollutants that impact their health. Air monitoring needs to be written into the plan. The plan needs to include the SPENDING of funds for TDR's and other land/forest preservation programs. The plan should include incentives for homeowners and businesses to use wind/solar/geothermal energy. Thank You Cynthia Peil

327.	Gordon and Mary Burton	pokipoki@verizon.net	Dunkirk	We have had three years of pretending to take in public opinion regarding the Comprehensive Plan. Now the County Commissioners throw out the basic critical items that do not support their personal, narrow goal of free for all growth for developers. Goodbye Calvert County. Hello Charles County! Goodbye Pleasant Peninsula! Hello Route 5 Shopping strip! (No that was not a typing error.) We will not know the difference between the two roads. What a sham of the democratic process. Just once, I would like to hear a rationale from the Commissioners as to why they are determined to destroy what we have in Calvert County. The people deserve an explanation. I knew this would happen, but I am truly sick at heart.
328.	Patricia Downey	padowne@aol.com	Chesapeake Beach	I moved to Calvert County thirty years ago. It seems like the BOCC is charging ahead despite opposition from residents. The Board members seem to be the very ones who stand to benefit financially by uncontrolled growth. The county's infrastructure isn't prepared to handle it yet. I'm fine with growth as long as it's done responsibly. Thank you for your consideration.

333.	Pamela Moore	PMoore7643@gmail.com	Dunkirk	I moved to calvert county knowing that I would have to drive a distance to stores. I did not have a problem with that at all. There was 1 lane into the county and 1 lane out of the county. The roads were widen to accommodate the growth in housing. I did not think the roads were widen to over load the county with businesses and more housing. The schools were the best of the best. Im dissappointed in the policies of failing and holding children back. No child left behind was not a way to push kids through school. It is supposed to be a way for the school to figure out how to teach each child individually so they can actually learn. Stop taking short cuts, stop trying to look good on paper. Stop the growth. Disappointed in our leadership!

335.	Von Willey	vonwilley@mac.com	Huntingtown	Hutchins, Hart & McConkey, will be remembered with loathing and disgust if they choose to vote yes on the current content of the Calvert 2040 Comprehensive Draft Plan. Two of the three have vested financial interests in the proposed expansions of town centers and removal of the major/minor town center designations, parading their unethical and corrupt mentality out for everyone to see. Will we, the people of Calvert, shrug and say "oh well"? Don't think so. These three will be remembered and immortalized by the daily grind of a torturous commute, the inevitable decline of home values and the steep rise of property taxes should they vote yes to this draft.

While having big box stores in the neighborhood is convenient, the convenience will be far overshadowed by a population explosion. California and upper Marlboro are not too far to go for most people. A large increase in population in this area will cause a severe backup if there were a natural disaster the required evacuation.</p> <p>Point 1: I recently retired from the Air Force at Andrews Air Force Base. One of my duties was the comm emergency support function in the emergency Operation center. Every year the base along with all of the other military installations participate in a major hurricane exercise. Let me tell you, the prognosis for this area of Maryland is grim at the population levels we are already at.</p> <p>Point 2,;Additionally my wife is a teacher Calvert high. Calvert county public schools are currently in fairly good shape. A population increase will create a larger work load on our already taxed teachers. There are already problems with retention of staff. Population increase could indirectly result in our school system losing its effectiveness.</p> <p>If we want to stimulate growth in Calvert county, let's do it by encouraging local business ownership on a scale that suits the current population. Your "public sessions" with us have been held in "senior centers" - sending the message that "only seniors don't agree with the plan" - and holding the meetings during times when most people who work all day have a hard time getting to the meetings. Also, I resent that "NO RESPONSES" to any of the comments have been "given publicly" - you all seem to listen with grave faces, as if it's "painful" to listen to those who want to keep Calvert what it was envisioned to be by our predecessors and what people still want to see today - a place off land and space and peace, not crammed buildings, traffic, and such. You don't even try to look engaged and interested in what the opponents to the plan say. You just ENDURE the meetings to check a box. It's rude at best. Give us YOUR RESPONSES! And HOLD these meetings at a place like a public library or fire department where it is engaging and neutral to ALL people.

378.	Renee Reid	nebeener@gmail.com	Huntingtown	This area has too little infrastructure to support the current population effectively. Growth without first implementing major changes in infrastructure would be thoughtless and irresponsible. Growth that is not thoughtfully controlled, and which doesn't consider the needs of current residents would be pure stupidity. Responsible growth means infrastructure first, as well as doing what is best for the majority of citizens. Additionally, I and many others find it more than suspicious that members of the BOCC have so much personal gain involved in the choices being made for our community. In fact, it is despicable. Some members seem to have confused and conflated their position of PUBLIC SERVICE with their business interests. This is both dishonest and dishonorable, bordering on fraudulent, especially considering the campaign promises made. I would appeal to the latent sense of honor and justice in our BOCC and ask, please, do the right thing by your community rather than your pocketbook.

433.	Amanda K.	tmb0408@aol.com	Prince Frederick	<p>I live in Prince Frederick off of Dares Beach Road and I have to say with the construction that has been going on and continues it is a nightmare ! Calvert County can not handle the traffic nor the occupancy of a build up of big box businesses. I grew up in this county and remember it being so beautiful and we didn't mind traveling to other locations for certain things, it was the feel of the county. When I decided to buy my home ten years ago we could have move to surrounding areas such as Prince George's county but I wanted to be in Calvert, I wanted to raise my children in Calvert. The schools have always been great, the communities that you get the feel for. I've noticed not only in past administration people want to do what benefits them, not what is the cause and effect to the area or others. I voted for the new commission because I thought it would keep Calvert, sure some change is good but the building cant happen and i think others would agree. Do we need 10 Mexican restaurants? The car washes that continue to pop up? Bring variety to already vacant properties . Do we need to build another apartment complex ? No we dont. We have seen crime elevate in this county from individuals that dont reside here, and that will continue . All I'm saying is use your resources else where, put efforts into something for children, utilize opportunities that are already available to your hands. Last time I checked the individual's that are holding office right now are put there by the people of Calvert County so listen to the people and not just say things during voting sessions to please people for votes. Keep Calvert, keep the building at ease cause I can say I don't want to see us become a Waldorf, or even a busy St.Marys. Bottom line is rt.4 can not handle the traffic for daily commuters, be smart when utilizing the county and funds of tax payers money and what is given to the county by organizations or state funds. Please keep the people in mind, and Calvert County.</p>

Then the Comprehensive Plan should be compiled from the people's concers. Not from the Comprehensive Plan being push down.</p> <p>3) The Lusby minor town center includes shops and services aimed at the residential community it serves. These goals and objectives are different from the Somons town center, which focuses on tourist wants and services. These towncenters should not be expanded and certainly not be contiguous. 650.	David Hardy	davehardy0101@aol.com	Lusby	I will be out of town during this meeting, but if I were present I would speak to the issue of growth control and town center boundaries being expanded. Lusby and Solomons do NOT need to be one large town center.

653.	Sandy Bell	actionvpmdow@aol.com	Chesapeake Beach	I actually live at Breezy Point. I have a Chesapeake Beach address because we have no post office which I'm fine with. I moved to Calvert County in 2001 from Bowie because I enjoy rural living. Bowie was rural when I moved there in 1981, and is now almost urban. Please don't destroy our way of life here. It is most pleasant and the reason many choose to live here.

656.	Robert J. Daniels, Jr.	bob_bythebay@yahoo.com	Prince Frederick	As elected officials it is your duty to listen to the concerns of your constituents. You are not doing your duty currently and if you have no intention of doing so, you have a responsibility to resign your position so that a worthy person can sit in your seat and do the work of the people. The current draft plan is a disaster, representing the desires of Developers, builders and real estate professionals. that is not who elected you it was the citizens and you continue to blatantly ignore their pleas, shame on you.
657.	Leonard Nale	lenale_engineering@comcast.net	Dunkirk	We fought to keep Dunkirk a Minor town center and we want to keep the wording minor and major in the plan. Kelly should be exempt from voting since it is a conflict of interest.
658.	Carolyn Anderson	CalvertPoplarsFarm.crln@gmail.com	Chesapeake Beach	Overgrowth is readily apparent for a farm where all bordering forests have been destroyed and undergrowth scraped clean by development. Flood with massive, periodically Bay pollution is obvious, traffic continues to increase. We take from natural systems that sustain this small Calvert peninsula, and regulatory changes advance the taking. Enough was enough years back. When will citizens voices matter?
659.	Sandy Griese	smgriese42@gmail.com	Huntingtown	We do not need more traffic at the route 4 and Cox Road intersection. What effect will it any of this have on schools. Find out BEFORE you make any changes.

Is this how democracy works now? Who will benefit personally/financially from these changes? We do not want our town centers to become Waldorf. Will you ignore the plea from the public? Are you listening?
668.	Charlotte McMurrer	Aiaancs1@aol.com	Huntingtown	It should be clear to you by now that the majority of citizens do not want any of the changes that the Board wants to make. This Board has provable conflicts of interest and has repeatedly displayed a desire to steamroll, minimize, and ignore public input and opinion. Please start doing what is right by listening to and implementing the desires of your constituents.

679.	Thomas Conner	tnc7031@gmail.com	Owings	I sincerely think the current commissioners have an agenda that is self serving, based upon some need or pressure to destroy what is great and has been so attractive for families to live in Calvert County. Urbanization will only significantly demand more government, increased taxes and destruction of the quality of life here. My family is not against well planned growth that is sustainable, reasonable and adheres to maintaining our rural atmosphere.
680.	Kelly Huhn	Kelly323@verizon.net	Chesapeake Beach	
681.	Dana McAnney	themcanneys@aol.com	Huntingtown	We moved to Huntingtown, instead of Dunkirk or Prince Frederick because we wanted a small town. The traffic at Route 4 and Cox Rd is terrible, and the land that is at the intersection should not be developed beyond what it is zoned for. I also think that the speed limit should be lowered thru Huntingtown. I am amazed and dismayed that a school zone has a speed limit of 55 mph!!! How you ever got away with that is beyond me. It is so dangerous for all of the left turners and Southbound traffic never has a stop light. Please listen to your constituents and slow the growth in our beloved county.
682.	Mark Drager	Mddragers@comcast.net	Saint Leonard	Linda Kelly is rolling over in her grave. Calvert has always been the different county with very controlled, careful development. 685.	Jeff Klapper	jeffklapper@comcast.net	Prince Frederick	Thanks for adding criteria to the APFO, but why was the language tying residential development to adequate facilities deleted from the plan? 687.	Andrew P. Clark	andrewclark940@hotmail.com	Huntingtown	I disagree with the substance and intent of the new comprehensive plan. I believe changing the direction of county development away from preservation and sustainability to one of excess growth at the expense of county residents' quality of life to be a serious mistake. Once the charm and small town feel which Calvert is known for is gone we can never get it back. Our children and grandchildren will suffer for this shortsighted plan.

689.	Karen Ruffin	kahtdr@yahoo.com	Huntingtown	I moved to this county for quiet. I love that the homes in the communities are spaced adequately. I do not agree with the changes the commissioner is wanting to make. I feel it will make this area congested and also make walking and driving a major concern for citizens. Also, the congestions could potentially move into our schools and that would not be good for our children.

694.	DANIELLE CARR	carrlafleurfamily@gmail.com	Prince Frederick	It's a shame we've already had to convince friends and family with big-money jobs to choose St. Mary's County & home-schooling over Calvert & Calvert public schools. But it can't be helped. Increasing commutes have already forced us to change jobs once. Our time is more important to us than the "standard of living" that Calvert offers. Or used to. Better to cash in on our real estate investment and take our lives to where we can spend time with our families.

These well thought growth controls have allowed reasonable growth in Calvert County while keeping this a wonderful place to live and raise a family.</p> <p>Please do not let strip malls spread from our existing town centers. Keep Rt 2/4 open for through traffic so our residential property values remain high. If Rt. 2/4 and Rt. 4 get clogged with more traffic lights and congestion, people can't easily commute to high-paying jobs around the beltway anymore and our property values will suffer.</p> <p>Thank you for your consideration.</p> <p>Edward Bender</p>

724.	Melissa Haner	melahaner@yahoo.com	Owings	Please listen to the requests of your citizens. Smart, sustainable growth. The towns can only be larger when and if the facilities are available to support the growth and they're not. Schools aren't big enough for current residents, no public transports, roads have potholes all over, flooding issues when too much rain, grass alongside highways aren't cut enough to keep visibility safe, too many accidents along highways (not enough enforcement of speed limits so might need more police officers). This isn't a town of 5 men and you were voted in office to support the citizens not squash their voices and concerns and listen only to yourselves.

728.	Cheryl Miller	millerspc@comcast.net	Dunkirk	Moved here for the atmosphere, the country, the lack of 'downtown' stores, lots, concrete etc. And, especially loved the community and County Board involvement to maintain that while making it better. Improvements are always good, but without a future impact review what good does it do? When did Calvert just throw it away and let it all just blow in the wind? When did a promise just become 'words that will never come true'? Most importantly, when did the VOICES OF THE PEOPLE start being ignored?
